July 12/13 Worthington shows a complete left pane measured 0.6.
 7100 1st 1857. Full margins at top, bottom & right. The left
 sheet margin is torn off so nothing of interest on plate margin
 appears. White gum. Beautiful clear impression. Deep blue
 shade. Purchased 12/17/11 from H.E. Stamp Co. Can find no
 dots except as follows on top row. 123 shows two dots one at
 NE corner & one over "C" of "P.O. 3542E" 74 (line to show direction)
 Y-5-6-7-8A & 1023 show one dot each at NE corner. & 1023
 has an extra dot $2\frac{1}{2}$ mm straight to the right of the vertical
 axis placed one. 20323 shows no dots but they are
 probably cut out by the perforations. There is also a
 dot $8\frac{3}{4}$ mm below the SE corner of 10023. This dot &
 the normally placed dot in 1023 are connected by a faint
 guide line. Can be seen at least a little on every stamp in
 the extreme right hand vertical row.

1523 shows 2 hor. lines on Haulakius head as
 the upper line reaches to the stamps on each side of 1523.

The center line of the sheet is a single line rather than
 varying in thickness. It shows two dots on it, one
 opposite the center of 1023 & one opposite the center of
 10023. The line is about 5 mm from the nearest part
 of the stamps, and runs at least $8\frac{1}{4}$ mm above the top
 of 1023 & at least 14 mm below the bottom of 10023.
 There seem to be no shifts in the sheet. The spacing is
 very nearly regular. The 2nd vertical row is a little higher than
 the 1st & 3rd. The 3rd is a bit higher than the 4th. The 7th is
 a bit higher than the 8th, and the 9th is a little higher than
 the 10th. So all the way up the sheet.

The center line opposite 9023 shows a hor. dash at least 4 mm
 long opposite Haulakius eyebrows. Sheet is perforated close
 to the right margin of right vertical row & not down the
 center line.

For transfer and relief varieties see card as
 marked. These vary considerably in the same hor. row
 probably because of difference in rocking.

Not owned by Washington July 1913.

Lot 122 - Unused 1c blue Plate 3, sheet of 100 (left pane), the bottom row Type I. (40), in its complete state, the ninth row Type I, with part of the scrolls removed, and in the other rows numerous copies of this intermediate type, the rest of the sheet being Type II (41).

The sheet is full o.g. and in very fine condition and is especially valuable as it was from this sheet that the experts were enabled to reconstruct Plate 3 of the imperf issue. Bought by Kleeman @ \$1,100.00.

Worthington Collection in the J.C.Morgenthau & Co. Sale of Aug. 21, 22 and 23, 1917.

141857. Plate 4 - Left Pane - Unused

Lot 25 - 1c blue, complete sheet of 100, Plate IV, left pane. (No sheet margin at left).

Top row type ii, bottom row type Ia (this row alone catalogues \$5,000.00), other 8 rows are type 1c, III, and IIIa. Stamp #39 defective, sheet slightly reinforced. On the whole the condition is fine, with full gum, bright color. A truly amazing sheet and one of the very finest of all existing pieces of this ever-popular stamp.

Harmer, Rooke & Co. Sale of Nov. 13 to 18, 1944.
