

5th 1857 Plate 2.

Complete Right Pane. Cardboard Proofs. Crawford Collection

Jan. 4/56 Have seen this sheet. Shade is about the same (a bit darker but probably the same printing) as my cardboard proof marked "SOT A". Imprints & plate number at right. Shows just a trace of center line opposite 21 R1. $1/4$ mm from stamp. One guide dot (red dots are faint) at NE corner of 10 R1 + 2 (side by side) at NE corner of 1-9 R1 inclusive. One dot of SE corner of 51-59 R1 inclusive. One dot with short faint vertical line through it 9 mm below the SE corner of 99-100 R1 inclusive. Very faint vertical line in ~~top~~ right sheet margin $5\frac{1}{2}$ mm from stamp. Spacing excellent. Few scratches & blemishes on the plate. Size of plate. $8\frac{1}{16}$ (1/2 plate) x about $11\frac{1}{4}$ cent ^{total sheet}

Transfer roll relief arrangement is probably as follows:

- usually shows trace of top frame line over SOT & POSTAGE
- a loops at top are cut touched except sometimes the extreme left hand one. Two left loops at bottom cut. Others barely escaped.
- b no bottom loops are touched. bottom much like "f": J p. Juss
- c left loops cut away. others barely touched.
- d
- e all my plate number strips.

5¢ 1861 - orange-brown - Type II

A superb vertical pair, sent to me for opinion July 26, 1944 from S. Newbury. This had been submitted to him by Spencer Anderson of N.Y. and priced at \$100.00. The pair canceled by two red grids of New York. At left is part of the French Receiving p.m. with "UNI" of "Etats Unis" also on lower stamp in same ink, part of the rectangular boxed "P.D." The New York grids with outer ring are in a brilliant red, whereas the French p.m. and "P.D." are in an orange-red ink. I sent S.N. a Richey cover with the same French p.m. dated in May 1861 - This in the same ink, also the cover had the same P.D. - On cover
(over)

10¢ 57 Type V and a 5¢ 1857 Brown Type II -

wanted to keep it.
